

Easin Rayhan

Cloud DevOps & SRE Engineer

easin.rayhan@example.com | +880 1612-445566 | Dhaka, Bangladesh | github.com/easinrayhan

PROFESSIONAL SUMMARY

DevOps & Site Reliability Engineer with deep expertise in container orchestration, Infrastructure as Code (Terraform), and high-availability cloud architecture on AWS and GCP. Committed to zero-downtime deployments and proactive monitoring.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Container & Orchestration:** Docker, Kubernetes (EKS, GKE), Helm, Docker Compose, Microservices Networking
- **Infrastructure as Code:** Terraform, Ansible, CloudFormation, Packer, GitOps (ArgoCD)
- **CI/CD & Automation:** GitHub Actions, GitLab CI, Jenkins, Bash Scripting, Python Automation
- **Observability & Security:** Prometheus, Grafana, ELK Stack, Datadog, AWS IAM, SSL/TLS, Vault, Linux SysAdmin

PROFESSIONAL EXPERIENCE

Senior DevOps Engineer | CloudScale Global, Dhaka (2022 - Present)

- Provisioned and maintained Kubernetes clusters across multi-region AWS environments supporting 99.99% uptime.
- Authored reusable Terraform modules automating VPC, RDS, and EKS deployments, reducing infrastructure setup from 4 days to 25 minutes.
- Built real-time alert routing in Prometheus & Grafana integrated with PagerDuty, lowering mean time to recovery (MTTR) by 50%.

Cloud Infrastructure Engineer | NetMatrix Networks, Dhaka (2019 - 2022)

- Migrated 24 on-premise monolithic workloads into Docker containers running on AWS ECS.
- Configured Web Application Firewalls (AWS WAF) and automated SSL certificate renewals, mitigating DDoS threats.
- Implemented automated database snapshot and disaster recovery drills verified with zero data loss.

EDUCATION

Bachelor of Science in Computer Science & Engineering | Ahsanullah University (2015 - 2019)
