PROFESSIONAL SUMMARY

Enthusiastic Junior Web Developer with strong foundation in JavaScript, HTML5, CSS3, and modern frontend frameworks. Passionate about creating intuitive user interfaces and eager to learn cloud deployment and testing methodologies.

TECHNICAL SKILLS

Core Competencies: JavaScript, HTML5, CSS3, React (Basic), Bootstrap, Git, GitHub, REST APIs (Basics), Responsive Design, Figma, JSON, VS Code

PROFESSIONAL EXPERIENCE

Junior Web Developer Intern — *PixelCraft Media* | 2023 - 2024

- Assisted in creating landing pages and marketing templates using HTML5, CSS3, and JavaScript.
- Converted UI wireframes and Figma designs into mobile-responsive web pages.
- Fixed cross-browser visual bugs and updated content based on client feedback.
- Used Git and GitHub for version control and submitted pull requests for team code reviews.

Web Development Bootcamp Capstone — *CodeCamp Academy* | 2023

- Built an e-commerce product catalog web application using React and mock REST API.
- Implemented client-side filtering, shopping cart state management, and user authentication forms.

EDUCATION & CERTIFICATIONS

Certificate in Full-Stack Web Development — CodeCamp Academy (2023)

A.S. in Information Technology — Seattle Central College (2022)
